

## VIVICHROME NYLON BLANK TABLECOVERS (P)

Vivichrome™ tablecovers made from 200-denier Nylon are the most economical we offer. Tough, light-weight and brightly dyed, they work well for convention and trade-show booths, marketplace display tables, and are great for recruitment events. The low cost in quantity makes this item a popular impartable for in-store promotion and product roll-out events, too.

Each tablecover is carefully hemmed all sides. Available upgrades include side panels for that “fitted” look @\$32.00 per pair, and a 2” sewn edge-border @\$5.00 per running foot. See page 15 for nylon color availability.

## VIVICHROME POLY-PRO TWILL BLANK TABLECOVERS (P)

Vivichrome™ Poly-Pro Twill™ has a smooth, tight weave that provides rich color and excellent abrasion resistance. At 9 oz. per square yard, this fabric is superior to nylon in opacity and offers a rich appearance. Each tablecover is “French-seamed” across the top portion and professionally hemmed on all edges.

Poly-Pro Twill™ tablecovers can be upgraded with side-panels, to create a “fitted” look @\$46.00 per pair. A 2” sewn edge border can also be added @\$6.00 per running foot. See page 15 for Poly-Pro Twill™ color choices.
