SPIRIT FLAGS (P)

You have not felt school spirit until you see your team's colors parading across the field! Crowdmaster has been making applied nylon Spirit Flags for over 60 years.

Our attention to quality is seen in our work. Durable 200 denier SolarMax™ nylon by DuPont is used in all of our Spirit Flags. Lock stitched hems prolongs usage. All Spirit Flags come complete with a 3.5" pole sleeve, sewn shut at the top and one bottom tab to attach to a flagpole. Choose your background and lettering color from the nylon section on page 15.

Crowdmaster™ will use 1 to 4 applied letters on your choice of two different background sizes. The lettering reads correctly on the front side and reverse, or backwards on the backside. Choose from among the styles listed below.
