CUSTOM AVENUE STREET BRACKETS (T)

A successful banner program starts with a high-quality bracket system that can be relied-on to securely hold your banners in place, while also being practical in design for ease of installation and maintenance.

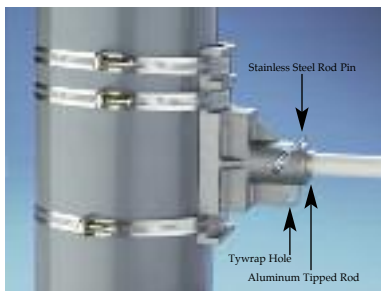

The heart of our system is our super-strong “no rust” cast aluminum bracket. Add the removable flexible fiberglass rod specifically designed to reduce high wind-load while keeping your banners taut, and you have a proven, reliable display system.

98 Series Street Banner Brackets

The 98 Series system is designed for banners that would typically be 23” to 30” wide X 54” to 96” in length. The bracket set is sent bulk packed and assembly is required.

Each single banner display set consists of following items:

- 1) Two “non rust” heavy-duty cast aluminum brackets (Four brackets in double banner display).
- 2) Two 3/4” fiberglass rods that are cantilevered 2 degrees to help keep your banners taut and are aluminum tipped on the end that goes into the bracket to help prevent wear (Four fiberglass rods in double banner display).
- 3) Two stainless steel rod pins to secure the fiberglass rod to the cast aluminum brackets (Four rod pins in double banner display)
- 4) Two tywraps that allow you to secure your banner to the bracket utilizing the hole in the casting (Four tywraps for double banner display).
- 5) Six stainless steel 40” bands for silver brackets and six powder-coated black 27” bands for black brackets used to secure bracket to the pole (Same amount of bands for double banner display).

BANNER WIDTH	BRACKET STYLE	1	12	24	48	100
23"	SINGLE	\$ 86.50	\$ 80.50	\$ 77.00	\$ 75.50	\$ 73.00
	DOUBLE	160.50	149.00	143.00	140.50	137.50
30"	SINGLE	\$ 89.50	\$ 83.50	\$ 80.00	\$ 78.50	\$ 76.00
	DOUBLE	166.50	155.00	149.00	146.50	143.50
23"	SINGLE	92.00	86.00	82.50	81.00	78.50
	DOUBLE	171.50	160.00	154.00	152.00	149.00
30"	SINGLE	95.00	89.00	85.50	84.00	81.50
	DOUBLE	177.00	166.00	160.00	157.50	154.50

45 Series Street Banner Brackets

The 45 Series system is designed for smaller banners that would typically be 16” to 23” wide X up to 60” in length. The bracket set is sent bulk packed and assembly is required.

Each set consists of following items:

- 1) Two powder coated black aluminum brackets (Four brackets in double banner display).
- 2) Two 3/4” fiberglass rods that flex with the wind (Four fiberglass rods in double banner display).
- 3) Two stainless steel rod pins to secure the fiberglass rod to the cast aluminum brackets (Four rod pins for double banner display).
- 4) Two tywraps that allow you to secure your banner to the bracket utilizing the hole in the casting (Four tywraps for double banner display).
- 5) Four stainless steel powder coated black 27” bands to secure bracket to the pole (Same amount of bands for double banner display).

BANNER WIDTH	BRACKET STYLE	1	12	24	48	100
